

Enrollment of Children of Non-Resident District Employees
Guidelines for Policy 5152.2

1. No later than February 1 of each school year, the non-resident district employee shall submit in writing to the Superintendent of Schools a letter requesting permission for his/her child to attend Bedford Central School District for the subsequent year.
2. The Superintendent of Schools will assess whether or not to admit each child for the next school year based upon policy 5152.2. The non-resident district employee shall be notified in writing whether or not his/her child shall be permitted to attend the schools of the Bedford Central District for the subsequent school year only. The initial notification will indicate the likelihood of whether the child will be granted permission to attend a school of the District; however, a final decision would not be made until the enrollment figures are finalized over the summer months.
3. The Superintendent of Schools will provide notification of preliminary acceptance on approximately May 1; notification of final acceptance will be provided no later than August 1.
4. Transportation of the children of non-resident employees is the sole responsibility of the employee.
5. The children of non-resident employees will be held to the same behavioral expectations as all Bedford Central students.
6. Children of non-resident employees who violate the code of conduct will be subject to disciplinary action. On-going significant misbehavior may result in the termination of attendance in the schools of the Bedford Central School District.
7. Non-resident employees whose children are in grades kindergarten through fifth may request a specific elementary school for their child to attend and efforts will be made to accommodate the request. The final determination, however, of which elementary school the children of non-resident children attend will be made by the Superintendent of Schools. The elementary school assignment may change up until the first day of school for students.
8. Non-resident employee children who attend the high school will choose courses subject to availability after the selections of resident children are made. In other words, course selection will be offered first to resident students.
9. Effective with the 2012-2013 school year, the annual fee for each child of a non-resident employee who attends a school of the District will be \$875. The District may deduct the fee from the employee's paycheck.
10. Each year after 2012-2013, the annual fee may be increased per policy. Any increase in fee will be communicated to the non-resident employee prior to August 1.
